

Hsp60 Polyclonal Antibody

CATALOG NO: 3094R-30T 30 µg (Trial size)
3094R-100 100 µg

HOST: Rabbit

IMMUNOGEN: Synthetic peptide mapping to the N-terminus of human Hsp60 (Internal ID# BV-D32)

SPECIES: Human, Mouse, Rat

FORMULATION:

0.5 mg/ml affinity purified rabbit anti-human Hsp60 polyclonal antibody in phosphate (PBS, pH 7.2) containing 30% glycerol, 0.5 % BSA and 0.01% thimerosal.

STORAGE CONDITIONS:

Store at -20°C. For long-term storage, aliquot and freeze at -70°C. Avoid repeated freezing/defrost cycles.

BACKGROUND DESCRIPTION:

Hsp60, also known as Cpn60, is an abundant protein synthesized constitutively in the cell that is induced to a higher concentration after brief cell stress or shock. It is present in all species analyzed so far and exhibits a remarkable sequence homology among various counterparts in bacteria, plants, and mammals with more than half of the residues identical between bacterial and mammalian Hsp60.

SPECIFICITY:

The antibody recognizes ~60 kDa of Hsp60 from samples of human, mouse and rat origins. Reactivity to other species has not been determined.

APPLICATION:

The antibody can be used for Western blot analysis (0.5-4 µg/ml). However, the optimal conditions should be determined individually. Blocking peptide is available separately (Cat.# 3094RBP-50).

Cat. #: 3094R-100
Western blot analysis of Hsp60 using Jurkat cell lysate (Lane 1 & 2).

FOR RESEARCH USE ONLY! Not to be used on humans.
