

SLAM/CD150 Polyclonal Antibody

CATALOG NO: 3226-30T 30 µg (Trial size)
3226-200 200 µg

HOST: Rabbit

SPECIES REACTIVITY: Human, Rat

FORMULATION:

0.5 mg/ml purified rabbit polyclonal antibody in phosphate-buffered saline (PBS) containing 30% glycerol, 0.5% BSA, and 0.01% thimerosal.

STORAGE CONDITIONS:

Store at -20°C. For long term storage, aliquot and freeze at -70°C. Avoid repeated freeze/thaw cycles.

BACKGROUND:

Signaling lymphocytic activation molecule (SLAM/CD150) is expressed at hematopoietic tissue, such as memory T-cells, as well as at immature thymocytes. It has high-affinity self-ligand ability and plays an important role in interaction of T and B cells.

SPECIFICITY:

The antibody recognizes SLAM/CD150 of human and rat origins. A 30 kDa and a 70 kDa band can be detected. Reactivity with other species have not been determined.

APPLICATION:

The antibody has been tested in Western blotting (3-6 µg/ml). However, the optimal concentrations should be determined individually. Other applications have not been determined.

Cat#: 3226-200 SLAM/CD150
Western blot analysis of SLAM/CD150 using Jurkat cell lysate.

FOR RESEARCH USE ONLY! Not to be used on humans.
