rev.11/16 For research use only

Cathepsin V Polyclonal Antibody

CATALOG NO: 3712-30T 30 µg (Trial size)

3712-100 100 μg

HOST: Rabbit

IMMUNOGEN: Synthetic peptide surrounding amino acid 21 of human

Cathepsin V (ID# BV-440)

SPECIES REACTIVITY: Human, Mouse, Rat

FORMULATION:

0.5 mg/ml affinity purified rabbit polyclonal cathepsin V antibody in phosphate buffered saline (PBS), pH 7.2, containing 30% glycerol, 0.5% BSA, and 0.01% thimerosal.

STORAGE CONDITIONS:

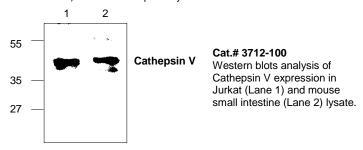

Store at -20°C. For long-term storage, aliquot and freeze at -70°C. Avoid repeated freeze/defrost cycles.

BACKGROUND:

Cathepsin V, also known as Cathepsin L2 and Cathepsin U, is a cysteine protease of the papain family. It is expressed as a proenzyme in lysosomes, which can be autocatalytically converted to the mature form at pH 4.0. Cathepsin V is specifically expressed in the thymus, testis, and corneal epithelium.

APPLICATIONS AND USAGE:

The antibody can be used for Western blot analysis (0.5-4 μ g/ml) and Immunohistochemistry (5 μ g/ml). However, the optimal conditions should be determined individually. Jurkat cell lysate and mouse small intestine tissue lysate can be used as positive controls. Blocking peptide (Cat.# 3712BP-50) is available separately.

FOR RESEARCH USE ONLY! Not to be used on humans.
