

## Cathepsin L Polyclonal Antibody

<b>CATALOG NO:</b>	3741-30T	30 µg (Trial size)
	3741-100	100 µg
<b>HOST:</b>	Rabbit	
<b>IMMUNOGEN:</b>	Synthetic peptide surrounding amino acid 223 of rat Cathepsin L (ID# BV-400)	
<b>SPECIES REACTIVITY:</b>	Human, Mouse, Rat	

### FORMULATION:

0.5 mg/ml purified rabbit polyclonal antibody in phosphate-buffered saline (PBS) containing 30% glycerol, 1% BSA, and 0.02% thimerosal.

### STORAGE CONDITIONS:

Store at -20°C. For long term storage, aliquot and freeze at -70°C. Avoid repeated freeze/thaw cycles.

### BACKGROUND:

The cysteine proteases termed lysosomal cathepsins have long been thought to be primarily involved in end-stage protein breakdown within lysosomal compartments. Cathepsin L functions to regulate cell cycle progression through proteolytic processing of the CDP/Cux transcription factor.

### SPECIFICITY:

The antibody recognizes the mature form of Cathepsin L (25 kDa) from human, mouse and rat origins. Reactivity to other species has not been tested. Rat kidney tissue lysate can be used as a positive control.

### APPLICATION:

The antibody can be used in Western blotting (0.5-4 µg/ml) and Immunohistochemistry (5 µg/ml). However, the optimal concentrations should be determined individually.

**FOR RESEARCH USE ONLY! Not to be used on humans.**
